rated as RICH IN QUALITY than quantity. HAND
KERCHIEFS are among most everybody's Christmas
grits. They are hought at this time with other thingsin a hurry. A line that its only recommendation is an
immense collection offers poor evidence of satisfaction.
You would not thank any one to give you a "lob lot"
of HANDKERCHIEFS that were about evenly divided
between good, had and indifferent qualities. That is
how these immense stocks are grown—from the gathering up of the weak or wrecked qualities.
OUR LINE IS SELECT—we glory in the fact—and
you ought to enjoy the perfect safety such an assortment offers you. We are not barren of styles and
grades. We have enough to satisfy all tastes—and all
purses. There is not a better line in town—nor—counting actual values—a cheaper one. We don't try to
compete with the "defective seconds." The patterns
we are showing belong to the best designers and are
held exclusively for the best execution. The best is It will be to your interest to come to the store Wednesday and Thurs-day, for where we find the necessity we shall reduce prices in order to close out all holiday goods prior to Christonia eve. Here are a few al-ready reduced.

Abyssinia, which sailed from New York December 13 for Liverpool, has been burned at see

that the Abyssinia had been burned at sea in latitude 49 north, longitude 29 west. The Spree signaled also that all on board the steamship were saved. The date of the burning of the Abyssinia, however, was not signaled. Although the Spree did not report that the Abyssinia's passengers and crew were on board of her, it is supposed that such was the case. The burned vessel was an iron, bark-rigged, three-deck, screw steamer of 2,546 tons net and 3,651 tons gross. She was built at Govan, Scotland, in 1870. She was 363 feet long by 42 feet 7 inches beam, and 34 feet depth of hold. She had compound engines of 500 horsepower.

The Abyssinia was valued at \$200,000. She was built for the Cunard line by the Thompsons of Glasgow, Scotland, in 1870. She was rated as A land counted as one of the Cunard line's crack steamers. For the past five years she had been running between Vancouver, B. C., and Hong Kong as one of the Canadian Pacific line steamers, and this was her first regular trip for the Guion line since then. She arrived in this port last September from Hong Kong with a cargo of teas. She sailed for Liverpool with a crew of eighty men. Besides having on board 16,000 bushels of wheat she carried a valuable cargo of macellaneous goods, among which was a large quantity of cotton and hops, &c. At the office of the Guion line in this city it was said this morning that all passengers and crew of the burned steamer were probably on the White Star steamer Teutonic, as that liner would be in the same latitude on her course to Queenstown, where she is signaled to arrive at noon today.
